

TOMORROW NEEDS *you.*

Apprentice Fire and Security Engineer

Are you excited to kickstart your career in the dynamic realm of fire and security systems? Join Johnson Controls, a global frontrunner in the fire and security sector, and play a vital role in crafting safer environments for our diverse clientele!

For 2025, we currently have roles available in the following areas: Devon & Cornwall, Kent & Essex, North London, Central London, London Southwest, London Southeast, Reading and Letchworth.

What You'll Do at Work

- Embark on a thrilling journey as you install, commission, and maintain electronic systems designed to protect people, properties, and assets.
- Gain in-depth knowledge about our cutting-edge systems, including fire detection, intrusion detection, CCTV, and access control solutions.
- Hit the road in your own company van, visiting a variety of sites, from residential to commercial and retail locations.
- Collaborate with a dedicated team, absorbing invaluable skills that will pave the way to becoming a qualified fire and security engineer.

Your Training Plan

Enrol in a Level 3 Fire Emergency and Security Systems Technician qualification delivered by Banham Academy alongside fellow Johnson Controls apprentices

Engage in block release basis training and receive on-the-job guidance from experienced mentors and engineers
