

Job Description

Position:	Lead Traffic Management Operative (LTMO) Apprentice
Division:	Logistics
Reports to:	Logistics Manager or Supervisor
Start Date:	Early April 2026
Duration:	18 Months

The Company

MadiganGill is a privately owned company which has been trading since 2009, we employ thousands of site-based colleagues across London and beyond.

Consisting of three businesses, we provide logistics packages on large capital construction projects, a resource company supplying labour and skilled trades to construction sites and a security division with SIA qualified guards on a range of sites and premises across several different industries.

Job Purpose

The Lead Traffic Management Operative (LTMO) is responsible for coordinating, installing, maintaining, and removing temporary traffic management (TTM) equipment and systems.

LTMOs work across a wide range of projects to deliver traffic management solutions that create safe working environments on construction sites. This includes supporting site access, managing vehicle and pedestrian movement, and safeguarding both site personnel and the general public.

Key Accountabilities

- Adhere to the project traffic management plan and organise traffic teams on site to deliver traffic management works.
- Maintain accurate organisational systems and records to ensure that deliveries and collections occur.
- Support traffic planners and managers by engaging with fleet and drivers and ensuring compliance with drivers' hours, vehicle maintenance and legal standards.
- Monitor external traffic and restrict unauthorised access on site by ensuring all external doors and gates are kept closed.
- Liaise with drivers and respond to customer and public enquiries in a professional and timely manner.
- Undertake maintenance and inspections for TTM vehicles, equipment and systems.
- Protect third party road users from vehicles/deliveries and liaise with police and parking wardens, where necessary.
- Perform routine inspection and operational maintenance, complete with loading platform and personal protective equipment (PPE), system checks and using these vehicles to create or enhance the safe working zone.

General Responsibilities

- Select and prepare TTM equipment and systems using traffic management layouts, design and technical specifications.
- Prevent obstruction of the site, our waste facility and adjacent public highways.
- Ensure that no un-booked vehicles enter site.
- Load, unload and secure TTM equipment and systems to and from vehicles or plant.
- Ensure delivery vehicles are safe to offload and leave site and that their wheels are clean.
- Ensure the site speed limit is adhered to and breaches of this limit are reported
- Operate and guide plant and vehicles to create safe working zones within limits of responsibility.
- Apply digital TTM technologies to a TTM system.
- Carry out static and dynamic risk assessments.
- Ensure work is completed in line with quality standards, health and safety, and environmental requirements.
- Respond to and contain emergencies including traffic accidents and vulnerable persons in crisis and seek support of formal responders.
- Communicate with others verbally: operatives, drivers, customers, and stakeholders.
- Complete task documentation, paper-based or digital.
- Ensure escalation procedures, limits of authority and handling driver infringements are in place.

The duties listed are not exhaustive, and the post holder may be required to undertake additional appropriate duties as directed by the Line Manager.

Qualifications and Tickets obtained upon completion

- Level 2 Apprenticeship
- CPCS Traffic Marshal Ticket (A73)
- CPCS Forklift (A17C)

Additional Information
